

## About Gandhi Shikshan Bhavan's Smt. Surajba College of Education

Late Shri Vajubhai Patel and Late Smt. Leelaben Patel and other like-minded thinkers started Gandhi Shikshan Bhavan's Smt. Surajba College of Education, conducted by Indian Council of Basic Education, in the birth centenary year of Mahatma Gandhi in 1969. Its purpose has been to examine, interpret and propagate the ideology and methods of Basic Education in both rural and urban areas. From then onwards, the successors have endeavoured to fulfil the goal of these great visionaries. The institution is truly committed, devoted & dedicated to teacher-education as well as school education. Most of the programmes organized here are based on Gandhian principles and values. They are designed, equipped, interwoven, implemented and integrated keeping in mind the need to bring about behavioral changes in the learner. The Motto of the college is 'TEACHING TO LEARN' AND 'LEARNING TO TEACH.'

### Need and Significance of the Theme

Education is considered as a vital tool for social as well as national development. It has significant role in evaluating the human development of a country. When we are assessing the development of a person, society, community or a Nation, the educational attributes, such as educational qualifications, number of educated person in the society or community, number of educational institution in the state or country (elementary, secondary, higher, professional educational sector) with respects to its population, rate of enrolment, retention, quality of education provided, equity and equality for educational opportunity and so forth are considered as the prime criteria for consideration. Hence every nation in the world has been giving emphasis to the development educational sector of their country. Many innovative programmes and projects are preparing by the policy makers as well as the academic bodies across the

world to improve their educational quantity as well as the quality. Crores of rupees are allocating in their budget for implementing such planned programmes and project. In India the projects like District Primary Education Programme (DPEP), Sarva Shiksha Abhiyan (SSA), Area Intensive Programme (AIP), Kasturba Gandhi Balika Vidhyalaya (KGBV), Rashtriya Madhyamik Shiksha Abhiyan (RMSA), Rashtriya Uchatar Shiksha Abhiyan (RUSA), Scheme for the Promotion of Quality Education in Madrassas (SPQEM) are constituted and implemented to improve the standard of educational sector of the country. Educational Researches are the main input as well as the output to bring such change in the educational sector. Research findings identify the shortcomings, strength and weakness of the educational sector of the country and it recommends implementing such and such programme for the development of their educational sector. Educational research also helps to evaluate the effectiveness as well as the impact of particular programmes and project which has been undertaken by any governmental or non- governmental agencies. Hence the breadth and width of the educational research is unlimited. It has a scope to conduct research in any area of education which has a chance to contribute knowledge for the development of education of a society, community and Nation as well.
