Few teachers are not well prepared with the content and due to the lack of clarity of content it affects the student from the exam point of view. Students are afraid of keeping their point of view as few teachers do not take it in a positive way. Few teachers make use of ICT and various methodologies whereas few make students to form groups and there is no explanation given on behalf of the teachers side.

Everything is perfect

All the Teacher's should conduct regular class assessments. All the teachers should be present in the classes on time if not the class should be informed. The Teacher's should not target the students based on their personal issues. There is a lot of distress among the staff members which leads to conflict and children are pushed into such conflicts. Teacher's should know how to draw a boundary between their professional and personal life at anytimes. Just by Saying things won't be done. Teachers should put things into practice.
